

LEAVE NOTHING TO CHANCE. CONTROL THE CHAOS.

TRAINING

SUCCESS AND FAILURE MAY BE SEPARATED IN MERE MOMENTS FROM EACH OTHER. The goal of the POD™ program is to give you and your team an advantage, positioning you for success using critical thinking and establishing appropriately conditioned responses forming a foundation of pattern recognition, advancing your journey toward mastery through problem based, experiential learning.

All our training programs take our unique approach to teaching high threat environment casualty care. This incorporates reality based training, Human Performance in Combat Casualty CareSM factors, unique, non-traditional and innovative training methodology and training aids.

TRAIN BEYOND FAILURE WITH CTOMS AND ELIMINATE ALL DOUBT.

CTOMS training solutions increase agency program sustainability for medical training by offering various combinations of E-Learning, problem-based learning and traditional delivery methods and enabling existing agency training staff to facilitate CTOMS programs. Our flexibility in our training models allows us to provide a range of services from simple consulting to turn-key training solutions.

LEAVE NOTHING TO CHANCE. CONTROL THE CHAOS.
